Hera - Light Years Ahead.

Hera Lighting L.P., Norcross, GA

Hera GmbH & Co. KG, Enger, Germany

Hera - Light Years Ahead.

Hera opened its U.S. headquarters in Atlanta, GA in 1991, and we've rapidly become one of the leading cabinet, furniture and display lighting companies in the United States today. We come from a European heritage of innovative lighting design and technology. In fact, we grew out of the very company that developed the first fluorescent lighting for kitchen cabinets in the early 1960's.

Hera has been perfecting halogen cabinet lighting since the early 1980's. We were one of the first U.S. companies to introduce halogen cabinet lighting and practically built the U.S. market for these products. As manufacturers, we develop our own unique lighting systems that have become extremely popular in a very short time.

All Hera lighting products are unique, stylishly designed and on the leading edge of today's lighting technology. From our halogen spotlights to SlimLite Flourescent, as well as our brand new LED line, all of our lighting systems exemplify beauty as well as form and function.

Hera's expertise bringing new trends and technology has been evident throughout the decades. As the driving force in lighting technology, Hera's main focus in the mid 2000's has been on LEDs. We have been at the forefront of this new technology bringing energy efficient and maintenance free LEDs to market.

At Hera, we're working hard to continue to produce maximum quality lighting systems at reasonable prices. All of our products meet and exceed U.S. safety standards and are UL and/or ETL listed. So, for state-of-the-art lighting systems and accessories that add the perfect accent to any home or business, contact us. One look and you'll understand why – Hera is light years ahead.

LED-Lighting

The latest lighting technology for your furniture, cabinets and displays

An LED (Light Emitting Diode) is a semiconductor that emits visible light when an electric current passes through.

- Extremely long lamp life of up 50,000 hours
- Lower power consumption
- High efficiency
- They produce virtually no heat
- No infrared or ultraviolet radiation
- LEDs are shatter proof

Hera has been at the forefront of this new technology. Today we proudly offer you a complete line of LED solutions for unlimited applications. Our engineers will continue to develop innovative products incorporating the advantages LEDs have to offer.

Can LEDs provide a consistent light color?

Consumer demand for LED lighting has pushed this technology to a state of becoming highly energy efficient while achieving increasing levels of light output. All manufacturers are constantly pursuing improvements in LED lighting performance. Hera Lighting is at the front of this movement with new and innovative LED luminaires. We strive to provide quality, durability and value with every product. Hera only uses the latest generation of high power LEDs from reputable suppliers such as Luxeon, CREE or Osram.

You may notice slight color variations of light between LED fixtures. This is normal. All manufacturers have this issue and Hera goes to great lengths to minimize this effect.

The process we use is called Binning. We purchase high quality LEDs from the best diode manufacturers and only accept few select Bin Codes. Because we cannot limit our production to only one Bin Code, we select our Warm White and Cool White Bin Codes with careful consideration to quality. Our Warm White range of Bin Codes is 2800K to 3800K, and the Cool White range is 3900K to 7000K. As we manufacture our LED luminaries, each product will have WW or CW and the Bin Code applied to the fixture and product packaging. We use our best effort to match Bin Codes but we cannot guarantee a perfect match or specific Bin Code availability. In order to minimize the color variation be sure to use the same Bin Code when possible. Keep in mind that within each bin code the Kelvin temperature range can vary from 200K to possibly 700K.

Much effort has been made to ensure you will receive the best color matching that LED technology will allow. If you think your lighting color variation is too great, please check that each fixture belongs to the same bin. If they do not then the color variation may be more noticeable. If you think the light is defective, return the fixture and we will test it. If we find there is a defect or the Kelvin temperature is out of range, we will replace your fixture free of charge.

HO-LED Bin Code markings on box and fixture

Cool-White

Warm-White

Panel-LED

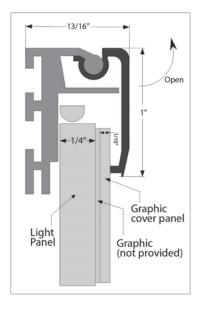

- Super Slim. Thickness only 13/16"
- Aluminum frame with black finish. Multi colors available by special order: white, gold, silver
- Easy to change picture and install
- The snap frame is easy to open, therefore the image is easy to change
- LED light sources are used, power saving & long lifetime (70,000 Hrs)
- Two color temperatures available: 6500K and 9000K
- Special sizes can be custom made to meet customer's requirements
- Mounts vertically or horizontally
- Applicable for businesses, supermarkets, banks, hotel, displays and exhibits
- LED Driver included

SlimLite XL-LED

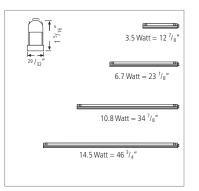

SlimLite XL-LED

Our brand new SlimLiteXL-LED is the easiest way to upgrade from current SlimLite XL fluorescent fixture to LED. Just unplug the existing fixture, plug in the new one and you are on your way to energy efficient and low maintenance displays. SlimLite XL-LED is also the perfect solution for new installations. With the same light output as our T5 fluorescent, this LED uses only half the energy and offers double the lamp life.

- LED with integrated electronic driver
- Energy Efficient. 1' (3.5 W), 2' (6.7 W), 3' (10.8 W) and 4' (14.5 W)
- Plug-in modular system allows for easy installation and continuous lighting
- Extremely long lamp life, rated 50,000 hours
- Available in Cool White or Warm White LEDs
- Optional plexiglas cover available (to be ordered separately)
- Good color rendering, CRA >85

Stick2-LED

Inline Dimmer Switch

Miniature Linear LED Lighting With Integrated Connecting System

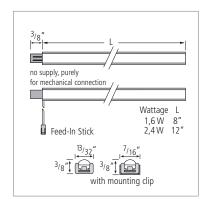

Stick2-LED is Hera's latest linear LED lighting solution. These ultracompact strips of LED lighting feature a very high and even light output and an integrated connecting system. Stick2-LEDs are perfect for furniture, cabinets and displays. They are also the ideal lighting solution for cooler and freezer cases.

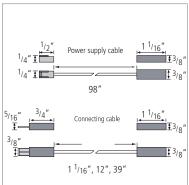

- **New and improved** Now available in 3' and 4' lengths
 - New Inline Dimmer Switch
 - Magnetic Mounting Clips now available

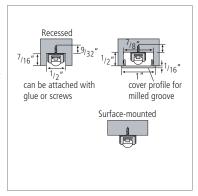

- Aluminum and plexiglas housing
- Extremely small dimensions: width: 3/8", height: 5/16"
- Light fixture can be recessed (flush with board) or surface mounted
- Available in four different sizes: 8" (1.6 W), 12" (2.4 W), 34" (7.2 W) and 46" (9.7 W)
- Available with cool white and warm white LEDs, as well as special color for meat cases
- Extremely high, even light output
- 50,000 hours useable life
- For unlimited runs order one Feed-In Stick for every 8'
- LED connecting cables are available in 1 ³/₁₆", 12" and 39" lengths
- Power supply cable 98" to be ordered separately
- To be used with 24 V DC LED driver
- Dimmable with optional accessories
- Inline Dimmer Switch with 4 position light level: 100 %, 50 %, 25 %, off
- Magnetic Mounting Clips Available

TwinStick2-LED

Inline Dimmer Switch

Extremely Compact Linear LED Lighting With Integrated Connecting System

Hera's brand new TwinStick2-LED is the latest linear LED lighting solution. With an extremely high light output, similar to T5 fluorescent light fixtures, these compact strips are ideal for commercial applications such as store fixtures or displays. Low energy consumption and virtually no maintenance (life time 50,000 hours) are additional benefits. TwinStick2-LEDs feature an integrated connecting system.

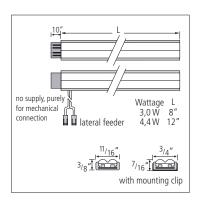

New and improved • No dark zones.

Tape-LED

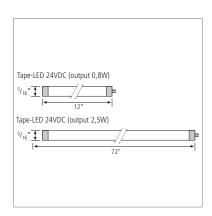

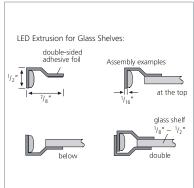

Tape-LED

The latest in flexible LED technology. Used as accent lighting for displays, furniture, kitchen cabinets or shelving. Illuminates without heating, ideal for delicate products and artwork. The flexible mounting allows installation in and around most angles.

- Self adhering, flexible LED strip, 0.8 W/ft
- Extremely long life 70mW LED, avg life 30,000 hours
- Available with cool white or warm white LEDs
- Finish: white tape with clear flexible lens
- Maximum 16' interconnected strips per power cable
- Quick and easy installation, can be shortened in 6" increments for custom fit
- Additional LED connecting cables are available in 2" and 20"
- To be used with 24 V DC LED Driver
- Dimmable with available accessories

LumiMax-LED

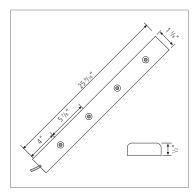

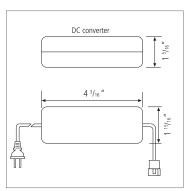

High Output Linear LED Lighting With 3 W Diodes

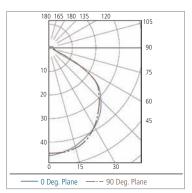

Hera's LumiMax-LED uses the latest 3 W high output diodes which provide an extremely high and even light output. This linear LED light fixture is available in three different lengths and perfect for installations in showcases, displays or under cabinets.

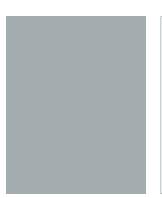

- Very attractive frosted plexiglas housing
- Light fixture can be recessed (flush with board) or surface mounted
- Extremely small dimensions: width: 1 7/16", height: 1/2"
- Available in three different sizes: 13 $\frac{3}{4}$ " (2 x 3 W LED), 25 $\frac{1}{2}$ " (4 x 3 W LED), 37 $\frac{7}{16}$ " (6 x 3 W LED)
- Available with cool white and warm white LEDs
- Extremely high, even light output
- One constant current DC converter included per strip

Tower-LED

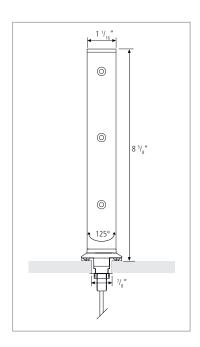

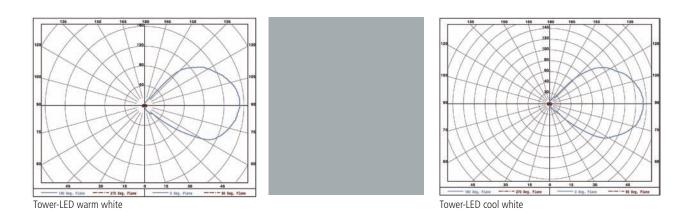

High Output Display Case LED Lighting With 3 W Diodes

Hera's new Tower-LED is the ideal lighting solution for display cases. Featuring the latest generation 3 W high output LED diodes, Tower-LED provides an extremely high and even light output. The light fixture swivels 125° and is particularly suitable for installation in jewelry cases, bringing out the sparkle in your diamonds.

- High quality, brushed aluminum and plexiglas housing
- 3 x 3 W high power LEDs
- Available with cool white or warm white LEDs
- Height: 8 ½", diameter: 1 ¼"
- Swivels 125°
- Very easy installation

QPad-LED

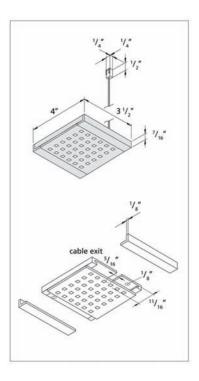

Low Profile Surface-Mounted LED Spotlight

Our brand new, highly designed QPad-LED is an energy-saving surface mounted spotlight with an extremely high light output. Its ultra-sleek, contemporary design makes it the perfect choice for retail displays, under cabinets and in bathrooms. The unique modern design of the QPad-LED attributed to winning the Red Dot Design award.

- Energy Efficient: 7.5W
- Extremely long lamp life, rated 30,000 hours
- Available in cool white or warm white LEDs
- Finishes available: Stainless Steel, Black, White
- Good color rendering, CRI >90
- To be used with 24 V DC LED driver
- Dimmable with optional accessories
- Good efficacy: WW= 60 Im/w and CW= 65 Im/w

LPad-LED

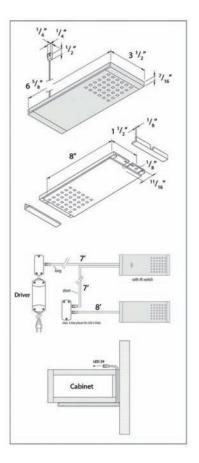

Low Profile Surface-Mounted LED Spotlight

Pure & elegant design combined with sophisticated materials and brilliant color finishes makes this LED spotlight an incomparable eyecatcher. An optional touchless IR switch operates the spotlight and the integrated Hera Nightlight-System guides your way through the dark night. The unique modern design of the LPad-LED attributed to winning the Red Dot Design award.

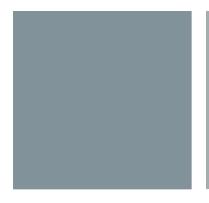

- Energy Efficient: Only 7.5 W
- Extremely long lamp life, rated 30,000 hours
- Available in cool white or warm white LEDs
- Finishes available: Stainless Steel, Black, White

ARF-LED

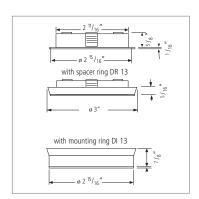

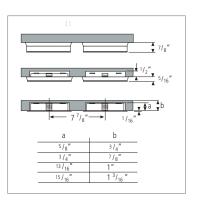

Low-Profile Recessed Or Surface Mounted LED Spotlight

This friction fit spotlight is designed for installation in kitchen cabinets, displays and furniture. It uses the latest generation Power LEDs which offer an equivalent light output to a 20 W halogen spotlight at only a fraction of the energy consumption (3 W). Virtually no heat emission and no ultraviolet radiation guarantee that your products won't be damaged. 50,000 hrs. of usable life make lamp changes a thing of the past.

- Recess depth only 5/8" or 1/2" (with spacer ring DR13)
- When surface mounted, overall height ⁷/₈"
- Friction fit
- Only 3 Watt power consumption (3 x 1 Watt LEDs)
- Available with cool white or warm white LEDs
- Finishes: white, black, chrome, stainless steel and gold
- Attached 69" connecting cable with plug-in connector
- To be used with 350 mA constant current DC converter
- Special accessories available: DR13-Spacer ring to reduce recessed depth DI13-Surface mount ring
- Additional LED connecting cables are available in 36" and 72"
- Dimmable with available accessories

ARFQ-LED

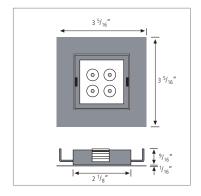

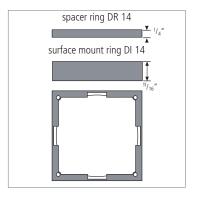

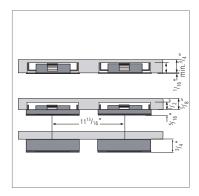

Powerful LED Cabinet Spotlight With Contemporary Square Design

The ARFQ-LED features 4 x 1 W high-power LEDs of the latest generation, guaranteeing a very high and even light output. The square design is perfect for today's contemporary kitchen cabinets, furniture and displays. The spotlight can be recessed or surface mounted.

- Recess depth only 5/8" or 1/2" (with spacer ring DR14)
- When surface mounted, overall height 3/4"
- Friction fit
- Only 4 Watt power consumption (4 x 1 Watt LEDs)
- Available with cool white or warm white LEDs
- Finishes: white, black, chrome, stainless steel and gold
- Attached 69" connecting cable with plug-in connector
- To be used with 350 mA constant current DC converter
- Special accessories available:

KB12-LED/KBS12-LED

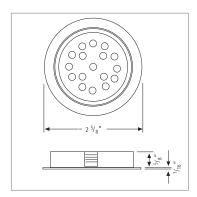

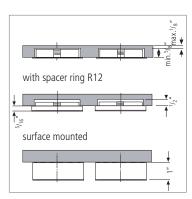

High Quality LED Spotlight At A Mid Level Price

The KB12-LED is a German made LED spotlight, available at a very attractive price. It features the latest generation SMD LEDs which provide a high and even light output while using only 1.6 W of energy. The KB12-LED can be surface and recessed mounted and is perfect for kitchen cabinet and furniture applications.

- Recess depth only 5/8" or 1/2" (with spacer ring R12)
- When surface mounted, overall height 1"
- Friction fit
- Only 1.6 Watt power consumption
- Available with cool white or warm white LEDs
- 50,000 hours usable life
- Finishes: white, black, chrome, stainless steel and gold
- Attached 98" connecting cable with plug-in connector
- To be used with 24 V DC LED driver
- Special accessories available:
 R12 Spacer ring to reduce recess depth
- Additional LED connecting cables are available in 39" and 98"
- Dimmable with available accessories

ER/EQ-LED

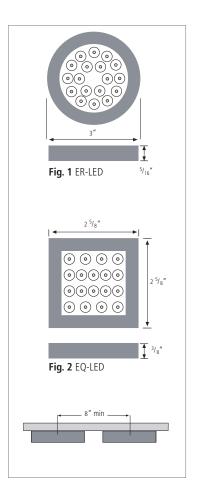

Hera Quality LED Spotlight At An Affordable Price

Our brand new ER-LED and EQ-LED are the latest in economically priced LED spotlights. The high quality ER-LED and EQ-LED feature an energy saving, surface mounted spotlight perfect for under cabinets in kitchens, bathrooms or displays using only 1.2 W. Easy installation with no need to drill holes into cabinets.

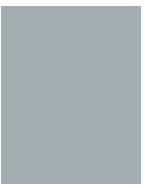

- Extremely long life, rated at 30,000 hours
- Energy Efficient. Only 1.2 W
- Stainless Steel finish in either Round or Square Design
- Available in Cool White or Warm White LEDs
- Flat dimensions. ER-LED height only $\frac{5}{16}$ ", EQ-LED height only $\frac{3}{8}$ "
- Attached 98" connecting cable with plug-in connector
- To be used with 24 V DC LED Driver
- Additional LED connecting cables are available in 39" and 98"
- Compatible with Hera 24 V LED switching accessories
- Dimmable with optional accessories

Eco-LED

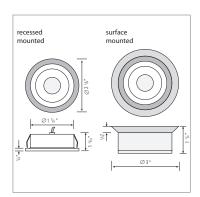

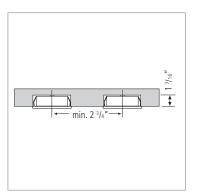

Economically Recessed Or Surface Mounted LED Spotlight

Eco-LED is Hera's economically priced LED solution. The spotlights feature 1 W high-power LEDs with a useable lifetime of 50,000 hrs. and high light output. Eco-LED is ideal for under cabinet, furniture or display applications.

- Recess depth 1 ³/₁₆", surface mount height 1 ¹/₄"
- Only 1 Watt power consumption
- Available with cool white or warm white LEDs
- Housing available in white, black and stainless steel
- Attached 79" long connecting cable with plug-in connector
- Spotlights come in sets of three, complete with 350 mA constant current DC converter
- Replacement / extra power supplies available
- Additional LED connecting cables are available in 20", 39" and 79"

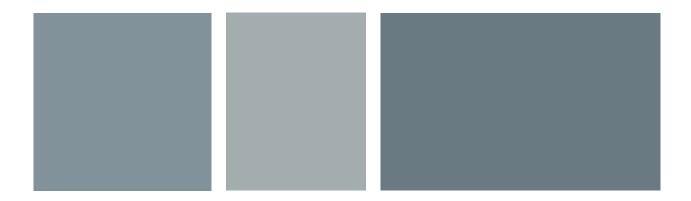

Spotlights

The Eco-LED spotlights come in complete kits of 3 light fixtures, including driver, connecting cables and all hardware.

ER1/ES1-LED

Economically Recessed Or Surface Mounted LED Spotlight

The brand new ER1/ES1-LED is the easiest way to replace Halogen spotlights without having to replace the transformer. These spotlights are the perfect accent lighting for vanities, displays, furniture, kitchen cabinets and especially RV's and boats.

Product-Features

- Energy efficient: Only I.7W
- Extremely long lamp life, rated 30,000 hours
- Available in cool white or warm white LEDs
- Finishes available: stainless steel or white
- Can be connected to Automotive 12V
- To be used with our Halogen Transformers, (12V AC/DC)
- Attached 79" connecting cable with NV6 plug

ES1:

- Overall height only ⁷/₈
- Screw on decor-ring
- Special accessories available: DR-I spacer ring

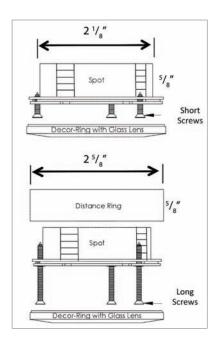

ER1:

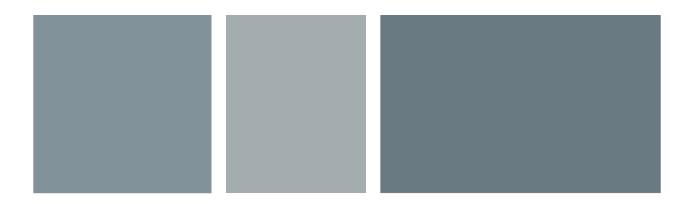

- Same as ESI but recess mounted by removing included distance ring
- Overall height only ¹/¸"

EH 24-LED

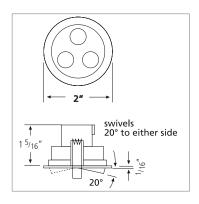

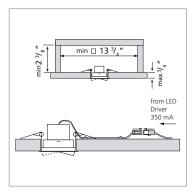

Recessed Swivel LED Spotlight

Ideally suited for installation inside displays, showcases or cabinets. The swivel feature allows you to direct the light in order to perfectly illuminate merchandise or collectibles. The EH24-LED uses the latest generation Power LEDs which offer an equivalent light output to a 20 W halogen spotlight at only a fraction of the energy consumption (3 W). Virtually no heat emission and no ultra-violet radiation guarantee that your products won't be damaged. 50,000 hrs. of usable life make lamp changes a thing of the past.

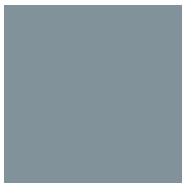

- +/- 20 degree swivel
- Recess depth only 1 3/4"
- Only 3 Watt power consumption (3 x 1 Watt LEDs)
- Available with cool white or warm white LEDs
- Metal housing available in: white, black, chrome, gold and stainless steel
- 69" connecting cable with plug-in connector
- To be used with 350 mA constant current DC converter
- Additional LED connecting cables are available in 36" and 72"

HO-LED

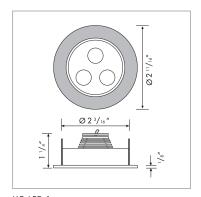

High Output Swivel And Non-Swivel LED Spotlights

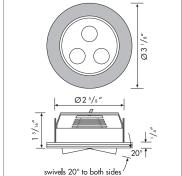

Hera's new swivel and non-swivel HO-LED Spots are ideal for applications where high levels of LED light are desired and minimal installation dimensions are not so important. The spotlights feature integrated 3 x 1 W high power LEDs with full LED optics. HO-LED Spots are perfect for displays, larger showcases and even soffits.

Product-Features

- High quality, brushed aluminum housing
- Swivel (+/- 20 degrees) and non-swivel version available
- 3 x 1 W high power LEDs with full LED optics
- Available with cool white or warm white LEDs
- Recess depth 1 ¹/₈" non-swivel, 1 ¹/₁₆" swivel
- Friction fit
- Attached 79" connecting cable with plug-in connector
- To be used with 350 mA constant current DC converter
- Additional LED connecting cables are available in 36" and 72"
- Dimmable with available accessories

Big6-LED

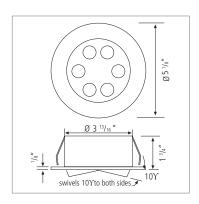

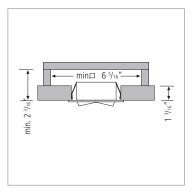

Recessed Swivel LED Spotlight With 6 x 1 W High Power LEDs

The Big6 was especially developed for applications where extremely high levels of light are necessary or desired. The integrated 6 x 1 W high-power LEDs provide an extremely high light output. The Big6 is perfect for larger display cases and even for installation in soffits.

Product-Features

- +/- 10 degree swivel
- Recess depth 2 ³/₁₆"
- 6 x 1 W high-power LEDs
- Available with cool white or warm white LEDs
- Housing available in white and stainless steel
- Attached 79" long connecting cable with plug-in connector

Flex-LED

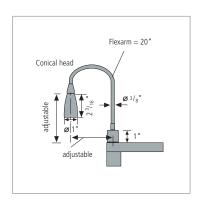

Flex-LED

Flexarm LED Spotlight

Ideal for display applications or as a reading light in headboards. The flexible arm allows an exact direction of the light. The 1 W high-power LED provides a good light output without any heat or UV radiation, allowing you to directly illuminate even the most sensitive products.

Product-Features

- 20" long Flexarm
- 1 W high-power LED
- Ready to connect to 350 mA constant current power supply, 51" connecting cable with plug-in connector attached
- Available with cool white or warm white LED
- Finish: matte chrome
- Special order colors and sizes are available for minimum quantities
- Four different versions
- Additional LED connecting cables are available in 36 " and 72"
- Dimmable with available accessories

LED Power Supplies

Constant Voltage 24 V

30 W Driver

75 W Driver

Electronic Power Supply For 24V/DC LEDs

Constant voltage electronic power supply for up to 75 W of LEDs. These power supplies work perfectly in all commercial and residential applications and feature very small dimensions.

Product-Features

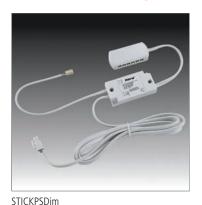

- 110 V, 50/60 Hz
- 24 V constant voltage
- Available wattages: 6 W, 30 W, 75 W
- Overload protection
- Overheat protection
- Short-circuit protection
- Soft start for maximum LED life
- 79" plug-in power cord
- One attached terminal block for up to 12 power cord connections
- Additional terminal blocks available
- To be used with Stick2-LED, TwinStick2-LED, KB12-LED/KBS12-LED, Tape-LED, ER/EQ-LED, QPad-LED and LPad-LED

LED Dimming Accessories

Constant Voltage LED

DimControl

Dimmer For LED Light Fixtures

Connects to the output of the 24V/DC constant voltage power supply to allow expanded plug and play functionality for lighting control. For additional versatility in installation the StickPSDim uses a separate controller, the DimControl. This allows the lighting to be adjusted from virtually anywhere in the cabinet.

Product-Features

- For dimming of 24V/DC LEDs
- Connects to output of StickLED driver
- Can supply up to 48W of LEDs
- Dimming range: 0-100%
- Control signal output: 1-10Vdc
- Must be used with DimControl or compatible control
- Can be ganged together for an expanded dimmable system
- To be used with Stick2-LED, TwinStick2-LED, KB12-LED/KBS12-LED, Tape-LED, ER/EQ-LED, QPad-LED and LPad-LED

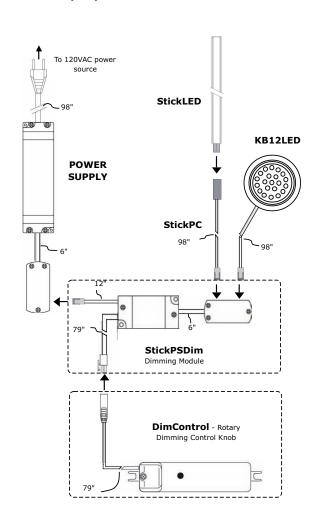

DimControl

- To be used with StickPSDim
- 1-10Vdc Sink Control
- Available separately
- Can be used with PSLED/DIM Constant Current Driver

LED Dimming Accessories

Constant Voltage LED

Remote Control

Remote Control Dimmer For LED Light Fixtures

Remote Controlled Dimming Adapter allows true energy savings when dimming. Connects to the output of the 24VDC constant voltage power supply to allow expanded plug and play functionality for lighting control. For ease of installation and reduced cabling, the RCPSDIM uses a wireless controller. This allows the lighting to be adjusted from anywhere in the room.

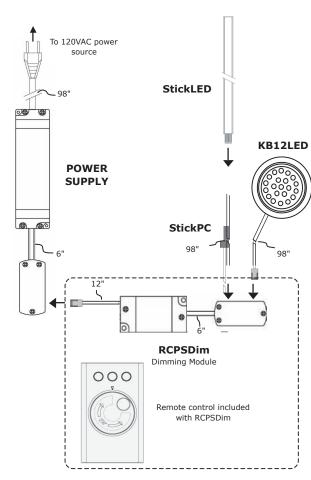

Product-Features

- Allows dimming of 24V/DC LEDs
- Connects to output of Stick-LED driver
- Can supply up to 30W of LEDs
- Dimming range: 0–100%
- Quickset buttons for 10% or 100% level
- Remote distance up to 50 ft
- Remote requires 2 x AAA batteries (not included)
- No interference with multiple remote systems
- Amplifier available to connect multiple RC modules to one remote control
- To be used with Stick2-LED, TwinStick2-LED, KB12-LED/KBS12-LED, Tape-LED, ER/EQ-LED, QPad-LED and LPad-LED

LED Switching Accessories

Constant Voltage LED

IR Switch

Infrared Switch For LED Light Fixtures

Low-Voltage IR Switch Controller allows flexibility of switching individual lighting sections without wall controls. The multi-function, motion activated switch will allow two modes of operation. One mode of operation functions as a door contact switch to allow interior cabinet lighting to operate when the door is opened/closed. The second mode will function as a motion sensor to allow touch free operation.

Since this is a Class 2 switch, it can be mounted virtually anywhere in the millwork.

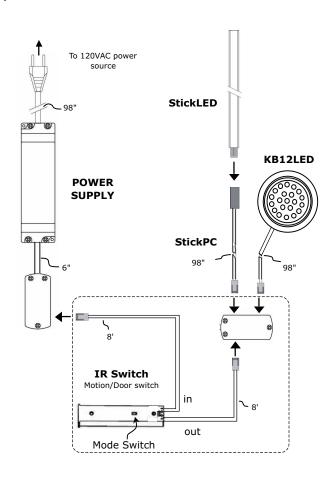

Product-Features

- Dual function IR switch for control of 24V/DC LEDs
- Function 1 (default) Door contact switch operation
- Function 2 Touch switch operation
- Connects to output of StickLED driver
- Can supply up to 30W of LEDs
- Surface mountable with included tape
- Recessed mountable in 9/16" drill hole
- Special order amplifier available to connect larger lighting systems (more than 30W) to one switch.
- To be used with Stick2-LED, TwinStick2-LED, KB12-LED/KBS12-LED, Tape-LED, ER/EQ-LED, QPad-LED and I Pad-I FD

What you'll need to buy

LED Power Supply, 9 W

Constant Current, 350 mA

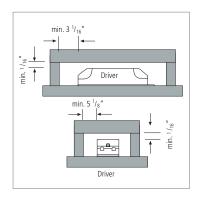

Electronic Power Supply For 9 x 1 W High-Power LEDs

Extremely small electronic power supply for max. 9 x 1 W high-power LEDs.

Product-Features

- 110 V, 50/60 Hz
- 350 mA constant current
- For connections of 1 9 x 1 W high-power LED
- Overload protection
- Overheat protection
- Short-circuit protection
- Soft start for maximum LED life
- 79" plug-in power cord
- Attached terminal block for 3 x LED spotlights.
- Additional terminal blocks available

LED Power Supply, 18 W

Constant Current, 350 mA

18 W Electronic Power Supply For High-Power LEDs

Constant current electronic power supply for up to 18 W of high-power LEDs. This power supply works perfectly in all commercial and residential applications and features very small dimensions.

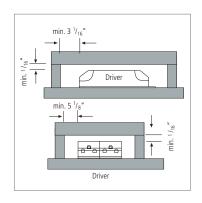

New – dimmable version available now.

Product-Features

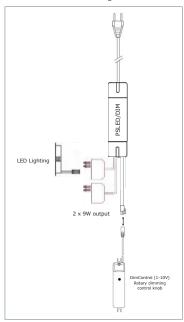

- 110 V, 50/60 Hz
- 350 mA constant current
- For connections of up to 18 W high-power LEDs
- Overload protection
- Overheat protection
- Short-circuit protection
- Soft start for maximum LED life
- 79" plug-in power cord
- Two attached terminal blocks for 3 x LED spotlights each.
- Additional terminal blocks available

SlimLite XL T5

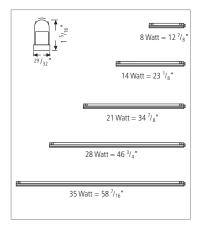

For longer runs, SlimLite XL is the solution. The XL offers all the benefits of SlimLite: It's cooler, brighter, more compact. And now it's available in 1', 2', 3', 4' and 5' lengths. This enables continuous rows of light of up to 50 linear feet which makes the XL the perfect lighting system for gondolas, store fixtures and long runs of shelves. SlimLite XL features standard T-5 lamps which are available in a variety of light colors. Its optional plexiglas cover makes it the preferred light fixture for food applications.

Product-Features

- Built-in electronic ballast
- Energy efficient, only 8, 14, 21, 28 and 35 W
- Uses standard T-5 lamps, CRI > 82 (to be ordered separately)
- Plug-in modular system permits easy connection for continuous lighting
- Extremely long bulb life, rated 20,000 hrs.
- Available in five different lengths:
 1' (12 ⁷/₈"), 2' (23 ¹/₈"), 3' (34 ⁷/₈"),
 4' (46 ³/₄") and 5' (58 ⁷/₁₆") width: ²⁹/₃₂", height: 1 ⁵/₁₆"
- Optional plexiglass cover available (to be ordered separately)
- Contemporary white housing
- End of lamp life circuitry to protect ballast

SlimLite T4

A Fluorescent So Compact, It Fits Even The Most Hard-To-Light Areas In Furniture, Displays Or Under Cabinets

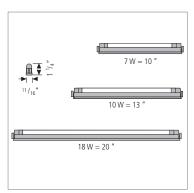

The fixture is easy to install with a snap-in system. You can also combine several fixtures effortlessly. The modular connecting system makes it simple to create long, continuous lines of fluorescent lighting to fit any space. Its high light-output and an extremely low heat index make the SlimLite ideal for displays and cases.

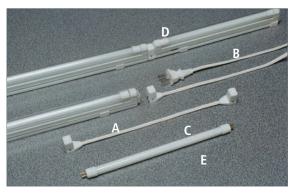

More Light · Less Heat · Easier Installation · More Flexibility

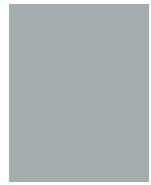

- Built-in electronic ballast
- Energy efficient, only 7, 10 and 18 W
- Slender profile fits virtually any furniture, cabinet or display
- Attractive, easy to clean plexiglas cover protects bulb
- Instant starting, Tri Phosphor lamp is quiet and flicker-free
- Plug-in modular system permits easy connection for continuous lighting
- Extremely long bulb life, rated 10,000 hrs.
- Contemporary white housing
- Available in three different lengths:
 10", 13", and 20"; width: 11/16"; height: 11/4"
- Available with T4 cool white or warm white bulb, CRI > 82
- Max. lamp watts in line 155
- End of lamp life circuitry to protect ballast (10 + 18 W)

E-Lite2

Economically Priced, Compact Grounded Fluorescent Light Fixture

E-Lite2 is ideal for installation in residential applications as well as lower end or temporary displays. E-Lite2 features many SlimLite XL benefits (connectivity, integrated ballast, small dimensions) at a lower overall quality level. If pricing is the main decision factor, E-Lite2 is the perfect lighting solution.

Product-Features:

- Built-in, medium efficient electronic ballast
- Includes cool white T5 bulb, 4100 K
- Includes plexiglas cover
- Grounded, Plug-in modular system permits easy connection for continuous lighting
- Rated bulb life 10,000 hours
- Available in five different lengths: 12 $^5/_{16}{}''$, 22 $^9/_{16}{}''$, 34 $^3/_8{}''$, 46 $^1/_4{}''$, 58 $^1/_8{}''$

HighLite

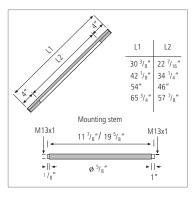

A Stylish New Way To Light Your Displays

The new HighLite from Hera offers an innovative, beautiful and easy alternative to illuminate your displays. In fact, HighLite is so attractive, you won't want to hide it. Now you have a complete, off the shelf solution which is simple to design into all your displays. Its sleek, smart design looks great anywhere.

Product-Features

- Round brushed anodized aluminum housing
- Including plexiglas cover
- Two different lengths of mounting stems available (11 ³/₈" and 19 ⁵/₈")
- Can be installed vertically or horizontally
- Built-in electronic ballast
- Energy efficient, only 14, 21, 28 and 35 W
- Uses standard T-5 lamps, CRI > 82
- Plug-in modular system and connecting elements permit easy, seamless connection for continuous lighting
- Extremely long bulb life, rated 20,000 hrs.
- Lighting element available in four different lengths: 2' (30 ³/₈"), 3' (42 ¹/₈"), 4' (54"), 5' (65 ³/₄")
- Diameter: 1 ³/₄"
- Optional wall mounting plate available, fits 4" junction boxes

KB12/KBS12

Compact Surface Or Recessed Mounted Spotlight

Designed for various applications, e.g. kitchen cabinets, display cases, exhibits, etc. Ideal for installation in wood and sheet metal.

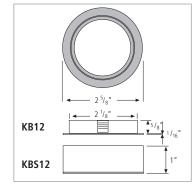

Product-Features

KB12

- Recess depth ${}^{5}/_{8}$ " or ${}^{1}/_{2}$ " (with spacer ring R12)
- 4,000 hrs. Osram bulb included Highly polished aluminum reflector
- Friction fit
- Easy to relamp
- Clear or frosted tempered glass lens
- 12 V/10 or 20 W bulb included
- Attached 72" connecting cable with NV6 plug
- Available in white, black, chrome, stainless steel and gold
- Special accessories available: R12-Spacer ring to reduce recess depth
- Can be used with 10,000 hrs. Xenon bi-pin bulb (special order)

KBS12

- Same as KB12 but surface mounted
- Overall surface height 1"
- Available in complete sets of 2, 3 or 5 lights

UC-60FT

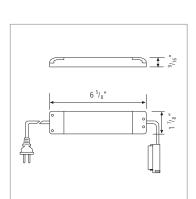

Ultra-Slim Electronic Premium Transformer

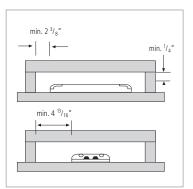

Its height of only 1/2" makes this transformer the preferred choice for even the tightest areas. This high-end transformer features an integrated radio frequency interference suppressor. It's especially recommended for commercial applications, entertainment centers, etc.

Product-Features

UC-60FT

- Ultra-slim, only ¹/₂" high
 110 V/11.5 V eff, 10 60 VA
- Weight only 3.2 oz
- Short Circuit protection
- Overload protection
- Overheat protection
- Soft start for maximum lamp life
- Dimmable with standard dimmers
- Radio Frequency Interference Suppressor
- Voltage compensation circuit
- 79" plug-in power cord
- 10" 12 V connector with NVK6/3 plug-in terminal
- Auto reset technology no fuses

HO-LED1 and SlimLite XL was used as a retrofit for this Canadian pharmacy. The company saved \$1 million per year in energy and lamp change costs, reduced failure rates and consolidated ballasts to one manufacturer.

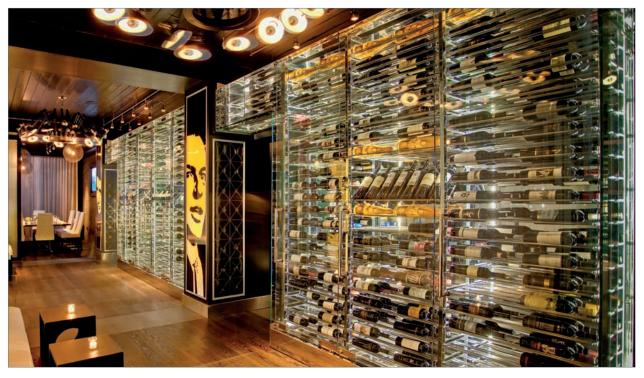

By replacing the Swivel Spot in the ceiling with Stick2-LEDs on the shelves, not only is the merchandise directly illuminated helping to increase sales, but energy costs are less and maintenace is a thing of the past.

Backlighting glass or plexiglas used to be a real challenge. With SlimLite XL this is no longer an issue. The light fixture is small enough to fit into the tightest applications while providing powerful, even illumination without any dark areas or hot spots.

Stick2-LED offers maximum lighting impact with its low profile, which can be applied to very confined places such as these wine case displays.

Stick2-LED and Big6-LEDs help save on energy and maintenance costs.

Stick2-LEDs produce virtually no heat so they are the perfect solution for retail displays as they will not damage merchandise.

This lingerie store in Toronto, Canada uses Slimlite XL to illuminate this shelving display for a dramatic increase of Eye To Product Ratio.

Hera's ARF-LEDs are used in this shelving display for a flagship store in Shanghai, China.

Stick2-LEDs line the underneath of these shelves with no dark spots. The integrated connecting system allows for continuous rows of light.

Bakery and deli cases are perfect applications for SlimLite XL-LED. The small dimensions and the connecting system make the integration easy. SlimLite XL-LED's low heat emission will ensure unspoiled food and prevent bread from "sweating". In addition, the light fixture is highly efficient and will reduce maintenance costs.

Hera offers a variety of lighting systems for retail applications. All these systems have one thing in common: they combine lower upfront costs with energy efficiency, high light output and minimal maintenance expenses, offering you an attractive Return of Investment.

The ARF-LEDs spotlight is the ideal lighting solution for shoe displays. The spotlight will not damage shoes because it does not emit any UV radiation. Virtually no heat emission makes it safe for your customers.

HighLite: Not only does HighLite provide a perfect illumination, it also adds to the design of your displays. Integrating lighting is no longer a headache, but a pleasure for today's designers.

SlimLite XL and SlimLiteXL-LED are the ideal lighting solution for retail shelf illumination. The small dimensions and integrated connecting systems make the installation very easy. A high light output illuminates merchandise properly. On top of that, both the SlimLiteXL and SlimLite XL-LED are very energy efficient and have a long lamp life.

Hera's KB12-LEDs and ER-LEDs are the perfect fit for these displays. Not only do the lights have a high output, but they are economically priced making it the ideal solution for temporary or modular displays.

The challenge for the lighting designer on this project was to find lighting fixtures that would complement the rich elegant feel of the exhibit, yet be durable enough to withstand travel and touring conditions. Hera's recessed and strip LED products showcased artifacts enclosed in display cases and shadow boxes. Since Hera's LED fixtures have virtually no heat emission and no ultraviolet radiation, they are ideal for illuminating heat sensitive objects.

Commercial | Healthcare

HO-LEDs are illuminating the world's largest ferris wheel in Singapore.

Even staircases can be illuminated using Stick-LED and Twinstick-LED. They offer adequate light to not only allow high visibility but also give an amazing decorative element.

Lighting up water or other beverages is an easy task with Hera LEDs since there is no heat generated to heat up the product.

Commercial | Healthcare

Stick2-LED provide accent lighting capabilities that enhance the overall design with its continuous lighting and no dark spots.

SlimLite XL is used in this divider wall in the lobby of an upscale resort. Lighting is not only for illumination but compact case good lighting can be incorporated into the overall design of a space.

Commercial/Healthcare

LEDs, such as Hera's KB12-LED, Stick2-LED and Big6-LED offer adequate and appropriate exposure to light, which is critical for health and well being of patients, as well as staff in healthcare settings.

SlimLiteXL is the perfect solution for office environments. It offers exceptional light output with maximum energy efficiency. Proper lighting helps employees stay focused and on task during a busy work day.

Hospitality

The Big6-LED is easily integrated into this headboard display. It offers a low energy alternative illumination for hotel environments.

The Flex-LED reading lamps use less energy consumption and Tape-LED provides soft accent lighting behind the headboard.

Hospitality

Hera's Stick2-LED and TwinStick2-LED can be mounted into this headboard display for added light and ambience in the room. With its low energy consumption and long lamp life, it helps save money on energy costs and maintenance.

SlimLiteXL helps to illuminate this free standing sink display in a hospitality environment. Not only do they provide ambient lighting, but they also function as a decorative element.

Flex-LED is ideal for using as a reading light in headboards. The flexible arm allows an exact direction of light to be focused where it is needed.

Hospitality

LEDs such as Hera's KB12-LEDs can be integrated into wood paneling on floor boards.

Stick2-LEDs allow for endless opportunities to incorporate the low footprint into overall design.

Hera's Linear LEDs add a decorative element as well as add significant light to entry ways..

Kitchen Cabinets | Residential

Arclamps and KB12: In today's world, a kitchen is unfinished without proper illumination. Show your kitchen investment in its best light! With Arclamps on top and KB12 under the cabinet you have the perfect combination.

Stick2-LED and KB12-LEDs are the perfect solution for under cabinet and in-cabinet lighting. These low profile lights require no maintenance, have low energy consumption and offer endless design integration. You can view a video of how to install these lights in this kitchen at: www.youtube.com/watch?v=j0b4-SwfEws

Kitchen Cabinets | Residential

Hera's ARF-LED is used in this high end residential closet remodel. Using virually no heat and no UV, the ARF-LED offers total elimination of fading clothing and shoes.

Hera's under cabinet luminaries offer brilliant lighting solutions for even the smallest spaces. The outstanding feature of these systems is their shallow recess depth for different diameter luminaires, which makes them suitable for almost any need.

The total flexibility of our lighting solutions makes it very easy to add LED or halogen lighting to bars to create that special atmosphere you are looking for to entertain your customers and friends.

Hera Lighting Systems – For a night to remember.
